

NEUROBIOLOGY 98r - Instructions for the final written report

PLEASE READ THESE INSTRUCTIONS CAREFULLY

**** NOTE: DO NOT USE THIS FORM IF YOU ARE CONSIDERING WRITING A THESIS ****

If you are considering writing a thesis, you should complete the 'combined thesis proposal form' (junior spring) or submit your 'partial rough draft' (senior fall) – see the 'Neurobio Forms' website for details.

Report Format:

A written report of approximately **5-10 (double spaced) pages** is due to your research director and the Neurobiology coordinator **at 5 PM on Tuesday, December 10, 2013** (Fall Semester) or **Tuesday, May 6, 2014** (Spring Semester).

The 98r report format should summarize the work done in the lab during that semester. This summary should include the following sections: Background (ending with a stated objective/goal of the research project), Methods (brief), Results, and References sections. If the semester did not yield any results, the student may focus on the other sections; however, students are encouraged to include any result no matter how seemingly small.

* * * * *

NEURO 98R WRITTEN REPORTS ARE DUE AT 5 PM ON:

Fall: Tuesday, December 10, 2013

Spring: Tuesday, May 6, 2014

Please email a .pdf (or Word doc) attachment to your research director; and cc that email to James Poolner (jp@mcb.harvard.edu).
