Intent to Pursue Non-Thesis Honors
Human Evolutionary Biology
2017-2018

Name:	**Date:**

Seniors: Please submit this form to Drs. Carole Hooven or Bridget Alex before Course Registration Deadline, *Thursday, September 7.*

The two criteria for being awarded non-thesis honors (NTH) in HEB are

1. Successful completion of two advisor-approved**, upper-level courses** (in addition to the thirteen courses required for the standard degree), and
2. **Concentration GPA** at or above the honors threshold determined by a committee of the HEB faculty in May. (This value is typically in the ~3.5 range.)

If your concentration GPA is below approximately 3.35-3.40 at the outset of Senior year, it may be very difficult or impossible to achieve the ~3.5 GPA mark in your two remaining semesters. You should consider this when deciding whether or not to pursue NTH.

Classes proposed for NTH eligibility:

1.

2.

Concentration Advisor's signature: _____

Student's signature: _____
